The Mining Equipment Prospector

FOR IMMEDIATE RELEASE

Emphasizing its commitment to Service and Aftermarket support, Atlas Copco is happy to announce the appointment of Paul Healy as President of Atlas Copco Construction and Mining Canada (ACCMC). Based in Sudbury at the Company's head office, Mr. Healy will be responsible for all Canadian sales and product support, plus an extensive network of service and parts centres across the country that serve the construction and mining industry.

Mr. Healy, a Mining Engineering graduate from Queen's University joined the company in 2000 after gaining extensive experience at a variety of underground mining operations across Canada. Most recently, he was based in Sudbury as a Vice President at ACCMC, a position in which he has been credited with building a network of strong regional teams within the Company's Service and Aftermarket division. This position has now been filled by Andre Bertrand, previously Service Manager for Central Canada.

Dirk "Dick" Plate, former President of ACCMC, will now be based in Montreal at the Atlas Copco Canada Inc.. He has been appointed Vice President Global Key Accounts, responsible for worldwide business development for the Atlas Copco group.

Atlas Copco Construction and Mining Canada consistently aims to deliver high quality products and services that contribute to our customers productivity and prosperity.
